One Month Notice

A highly experienced Exams and Data Manager whose career has been built entirely within secondary education, bringing specialist expertise across the full examinations cycle, MIS administration and pupil performance data. With a Masters in Applied Statistics and fluency across Arbor, SIMS and BromCom.

EER308

PERSONAL STATEMENT

An experienced Exams and Data Manager with over a decade of specialist expertise across MIS systems, examinations management and data analysis in secondary education. Combining a strong statistical background, including a Masters in Applied Statistics, with hands-on operational experience managing complex exam cycles, pupil data and school reporting. A calm, methodical approach to high-pressure deadlines, a genuine commitment to accuracy and the flexibility to support wider school operations where needed. Now looking for a new challenge where strong data expertise and education sector knowledge can contribute to a growing school or trust.

KEY SKILLS & EXPERTISE

- Examinations Management (GCSE, A Level, Vocational)
- MIS Administration (Arbor, SIMS, BromCom)
- School Data & Pupil Performance Analysis
- Statutory Returns (School Census, DfE reporting)
- JCQ Compliance & Access Arrangements
- Data Dashboards & Leadership Reporting
- 4matrix Performance Tracking
- Statistical Analysis (SPSS, SAS, SPLUS)
- Admissions & Attendance Support
- Sage 50 Accounting Software

PROFESSIONAL EXPERIENCE

Exams and Data Manager

Secondary Academy, London | 2020 – Present

MIS: Arbor

- Lead responsibility for the full examinations cycle across all year groups, including entry management, timetabling, invigilation coordination, access arrangements and results processing for all external qualifications including GCSEs and A Levels
- Manage all aspects of school data and MIS using Arbor, ensuring accuracy, integrity and compliance across pupil records, reporting and statutory returns
- Produce and analyse performance data to support senior leadership decision-making, including tracking attainment, progress and attendance trends across year groups and cohorts
- Prepare and submit statutory data returns including the School Census, ensuring full compliance with DfE requirements and deadlines
- Generate data dashboards and reports for senior leaders, governors and external stakeholders, translating complex datasets into clear, accessible insight
- Manage access arrangements for examinations in close liaison with the SENCO, ensuring full compliance

- Support admissions and attendance processes as part of a broader contribution to school operations and administration
- Act as the internal point of contact for exam board queries, awarding organisation communications and results enquiries

Exams Officer

Secondary Academy, London | 2014 – 2019

MIS: SIMS, BromCom

- Managed end-to-end examination administration across all external qualifications, including candidate registration, timetabling, venue management and results handling
- Maintained accurate MIS records across SIMS and BromCom, supporting data quality and reporting requirements
- Coordinated invigilation teams and managed exam day logistics across multiple venues
- Liaised with exam boards, subject leads and the SENCO to ensure compliance with regulations and access arrangement requirements
- Supported wider data and reporting activity as required by the senior leadership team

Exams Officer Assistant

Secondary Academy, London | 2012 – 2014

MIS: SIMS

- Provided administrative and operational support across the full examinations cycle
- Assisted with candidate entries, timetabling, invigilation scheduling and results administration
- Maintained accurate records within SIMS and supported the Exams Officer with JCQ compliance requirements
